Waterview House

GRAND
UNION

Grand Union will be a truly pioneering canalside neighbourhood.

Located in Alperton, close to Wembley and with connections into the West End and City, at Grand Union our vision is to create a place where people and community thrive. A new Canalside Piazza will offer a waterside bar and restaurant and new community facilities. 14 acres of open spaces will include landscaped gardens, riverside walks and meadows surrounding over 3,350 homes.

The creation of a multi-storey industrial hub known as SEGRO V-Park Grand Union, featuring workspace rounds off the numerous facilities, making this a waterside destination in which to socialise, play and relax. It is already a location with strong commercial growth, which is going to contribute to the wealth of diverse interest at Grand Union.

1.

The golden triangle of regeneration

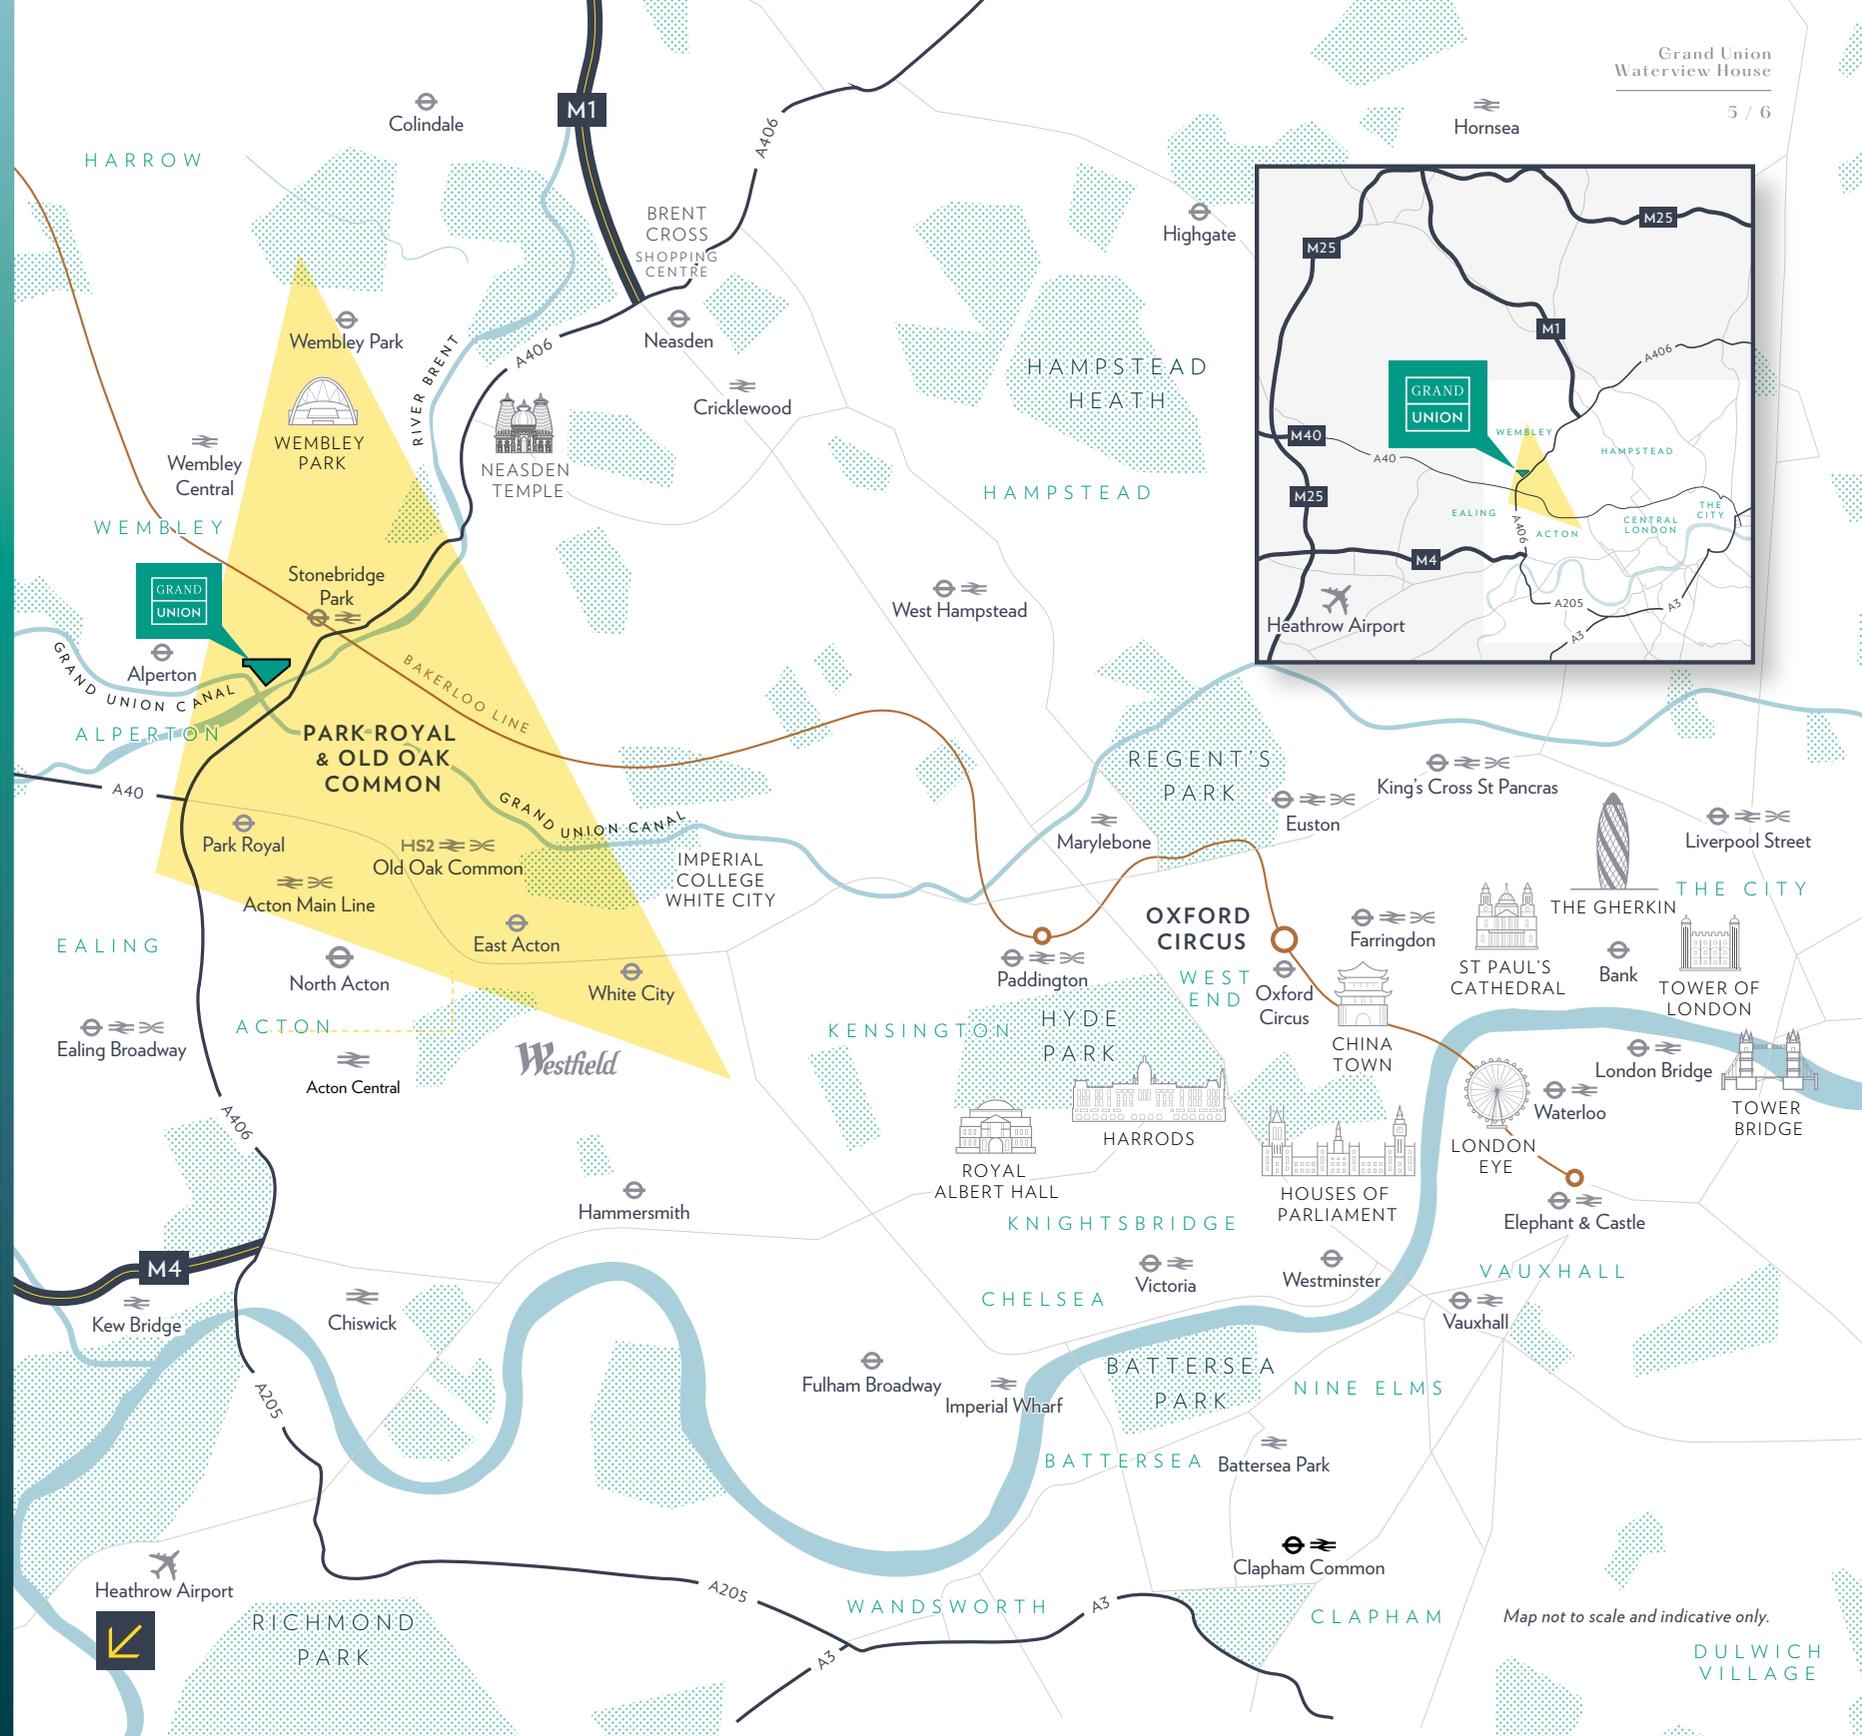

Situated in north west London, this borough boasts unique shops, numerous restaurants, bars and street food venues as well as cultural attractions and the iconic Wembley Stadium. Grand Union is less than 7 miles from the City and West End and well served by public transport network links.

£30bn

BEING INVESTED LOCALLY

THE GOLDEN REGENERATION TRIANGLE

Grand Union lies at the heart of an exciting 'Golden Triangle' of regeneration which is breathing new life into the area with a boom in businesses, jobs and homes with around £30bn being invested into the area.

2. Brent — a fast growing borough

This London Borough of Brent has a regeneration strategy in place to promote residential growth as well as new employment opportunities which will drive strong demand for rental properties.

There are five major regeneration areas within the borough of Brent; Wembley, Alperton, Burnt Oak/Colindale, Church End and South Kilburn. Between them they will provide over 20,000 new homes, revitalise local communities and drive demand for rental properties within the borough. Strong demand for rented accommodation in Brent has contributed to a steady rental growth of 9% per annum over the last four years, and by 4% over the past year (to Q1 2021).

Investment potential

- Regeneration facilitates capital growth
- Off-plan sales with over 3 years to completion
- Cost-effective service charge targeted at £3.75
- Local employment hubs such as Park Royal and the creation of new employment on site will drive investment demand
- Attractive gross rental yields
- Low level of local new build competition
- Improvements to the local area - regen - attracting more buyers = capital growth
- Wembley is home to a new commercial development, V&V Ealing Road. This will be creative space for entrepreneurs, makers and food traders with the aim of creating a collaborative community

5. The St George effect

Regeneration lifts neighbourhoods and also capital values

FROM CREATING NEW WAYS OF LIVING TO INTRODUCING NEW FACILITIES, SERVICES AND ATTRACTIONS; REGENERATION CAN COMPLETELY TRANSFORM AN AREA.

This can have a marked impact on property prices, with prices in regeneration zones increasing by 1.5% per annum over and above wider house price growth.

Berkeley property values have grown by an annual average of 13.8%. This compares with the local area average of 8.8%, meaning that each year Berkeley properties are outperforming the wider market by **around 5%**.

10. SEGRO V-Park Grand Union

134,500 sq ft of workspace, where a variety of light industrial businesses will be able to innovate and grow.

St George and SEGRO, a leading owner and developer of warehouse space, have formed a joint venture to bring forward the first urban multi-storey industrial development in the UK.

The pioneering development, known as SEGRO V-Park Grand Union, will provide employment opportunities for the local community and workspace for a variety of light industrial occupiers, ranging from tech start-ups and food and drink distributors to manufacturers and creative studios. It will benefit from shared meeting rooms, breakout areas and wellness spaces, including a roof terrace.

Within SEGRO V-Park Grand Union, the ground and first floors will be utilised to provide over 100 parking spaces, with electric vehicle charging points incorporated. Other sustainability features such as photovoltaic cells and an internal green wall will also help create a better environment for our occupiers and the community.

Grand Union' offers 14 acres of open space including landscaped gardens, riverside meadows and riverside walkways. Sustainability is fundamental to Berkeley's ethos. In simple terms, we want to ensure the long-term health, wellbeing and prosperity of people and the planet. We have included a variety of features to reduce environmental impact and make it easier for you to live a healthy, sustainable lifestyle. These include measures to ensure water and energy efficiency where possible, providing sustainable transport options through cycle routes, nearby stations and car charging ports and future-proofing the design of our homes.

We continually set out goals to continue to pioneer net biodiversity within the development industry. We have committed to measurably enhance nature on every new site since 2017 and since the launch of Our Vision 2030 we have increased our goal to deliver a minimum 10% net biodiversity gain on all new developments.

Grand Union will exceed this goal with a targeted 240% net biodiversity gain. Berkeley has also been named Sustainable Housebuilder of the Year for the last two years running.

Waterview Gardens

The Waterfall spans 6m across and an impressive 4m high making a real impact at Grand Union. St George has continued its focus on biodiversity by incorporating a pond with planting which benefits the surrounding nature.
