# WHERE BUSINESS MEETS CULTURE

The East of London has become a destination for arts, culture, shopping and business. The 2012 Olympics left a legacy that continues to grow with sporting venues, homes and parks, while Canary Wharf continues to thrive as a place to work, eat, meet and have fun.

You can enjoy the buzz of all these East London destinations and amenities with ease from Poplar Riverside. For some retail therapy, choose between Canary Wharf's six shopping malls and Westfield Stratford with its 300-plus shops. Both venues offer plenty of places to dine out, from smart restaurants to relaxed cafés.

If you want to experience live

music or sport, the O2 is one of the capital's top entertainment venues, playing host to some of the world's biggest artists and sporting events, as well as being another food and shopping destination.

Culture is also moving east, with Sadler's Wells, the English National Ballet, the V&A and the Central Film School all establishing centres here.

# THE BERKELEY DIFFERENCE

At Berkeley, quality is a priority, from choosing the right location and style of home, to the construction processes we practice, the materials we use and the specifications we put into our homes.

Attention to detail, uncompromised quality and inspired creativity are the hallmarks of a Berkeley home and are at the core of our values and strategy. Unlike most major house builders, we do not have a standard product but use qualified architects to design each scheme, whether it consists of four or 4,000 homes. This tailored approach ensures that we deliver homes and communities that meet our customers' needs.

For Berkeley, development is all about people. We go beyond the conventional role of a developer and put the strength and wellbeing of the wider community at the heart of every plan.

We listen to local people and find out what they care about most. Then we work in partnership to shape unique, locally inspired masterplans with a mix of beautiful public spaces, natural landscapes and welcoming amenities that bring people together to enjoy community life.

## A FOCUS ON SUSTAINABILITY

Our goal is to be world-class in the area of sustainability, both in terms of running our business efficiently and considerately and by developing sustainable places.

We are committed to being a responsible business that thinks about the long-term. We seek to not only reduce negative impacts but to maximise the benefits our activities can bring to create a positive impact. Sustainability to the Berkeley Group, in its simplest terms, is about people, the planet and prosperity. We think about these three aspects during our operational activities and also in terms of the developments and places we create.

Our business operations have been carbon positive since 2018, through taking action to reduce energy use and offsetting more emissions than we produce. We are producing zero carbon transition plans for all new developments and designing more climate resilient homes and places.

To help homeowners live more sustainably we incorporate a range of features into developments, from water efficient and energy efficient fittings and fixtures, to recycling facilities, cycle storage and electric car charging points. We also include information in all our Living Guides that enables occupants to understand and operate their home efficiently and make the best use of local facilities.

INVESTOR IN CUSTOMERS GOLD AWARD
