YOUR NEW E2 DESTINATION

EAST LONDON'S NEXT CHAPTER ON THE CANAL

Perfectly positioned along the historic Regent's Canal, Regent's View offers one, two and three bedroom apartments with excellent connectivity to the City, award-winning architecture and exceptional residents' facilities and landscaping.

With effortless access to Broadway Market, London Fields, and Victoria Park, the development is exceptionally well connected, moments from both Overground and Underground stations.

Designed by internationally acclaimed architects RSHP, this World Architecture Award-winning development features an outstanding array of residents' facilities — including a rooftop bar with far reaching City views.

REGENT'S CANAL

Regent's Canal is a historic and picturesque waterway that winds through the heart of London, connecting King's Cross in the west with Stratford in the east. Forming a unique urban corridor, it links major transport hubs and business districts while preserving a rare sense of calm and character.

Completed in 1820, the canal is now lined with inviting bars, restaurants, cafés, moorings, and green spaces, the perfect setting for a morning run or a leisurely cycle along its 7.4 km of scenic towpaths.

HISTORY

The Bethnal Green gasholders are an integral part of the local cityscape dating back to the mid 19th century, when they used to store gas from the Shoreditch Gasworks, now the site of Haggerston Park.

The smaller, more decorative gasholder, is the older of the two. The larger gasholder is twice the height, standing 146 feet above ground, 50 feet below, and a 200 foot diameter.

INSPIRED BY
THE PAST
DESIGNED FOR
THE FUTURE

1853

The Gas Light & Coke Company bought the site to store gas for the Shoreditch Gasworks.

1866

Gasholder No.2, designed by Joseph Clarke, is completed. This is the oldest surviving large gasholder frame.

1889

Gasholder No.5, the largest gasholder frame in existence, is completed. It was designed by George Trewby, chief engineer of the Gas Light & Coke Company.

COMMERCIAL SPACES

The redevelopment of Regent’s Canal has unveiled prime waterfront commercial spaces at Regent’s View. Perfect for restaurants, bars, and independent shops, it’s set to become a dynamic destination for businesses and a vibrant spot for the community.

At Berkeley Group our passion and purpose is to build quality homes, strengthen communities and improve people’s lives. We are innovating, pushing boundaries and taking action to ensure we have a long-term, positive impact that is good for our customers, the communities we touch, our business and the world around us.

FIRST TIME BUYER HOMES

HOW IT WORKS

The First Time Buyer homes at Regent's View are available at a discount below market value to qualifying applicants in the London Borough of Tower Hamlets, Hackney, Waltham Forest, Newham, or Islington.

Who Qualifies?

To qualify for one of the First Time Buyer homes at Regent's View, applicants must meet the following criteria:

Earn below the maximum household income of £90,000 for the individual property at the date of application.

In addition, the applicant:

- Have been a resident of one of the following London boroughs for at least 12 months: Tower Hamlets, Hackney, Waltham Forest, Newham, or Islington; or
- Have been employed within one of the following London boroughs for at least 12 months: Tower Hamlets, Hackney, Waltham Forest, Newham, or Islington.
- Does not currently own and has never have owned a property.

How it works

When purchasing, you pay a capped sum for a one or two bedroom apartment. You will enter into a deed of covenant with the London Borough of Tower Hamlets, for the remaining share, which will set out the conditions of resale and percentage discount applied. No rent will be payable to the Borough. As the scheme has been designed to enable access to home ownership, the properties cannot be sub-let.

What happens when I wish to sell?

When you come to resell the apartment, it is sold with the same criteria and at the same discount percentage as at the time of purchase. You will need to notify the London Borough of Tower Hamlets, who will place priority on approved applicants. If no suitable purchasers are available you can sell the property on the open market.

Can I purchase the remaining share of the property?

Yes, at the discretion of the London Borough of Tower Hamlets, you will be able to purchase the remaining share of the property. If the deed is bought out in full, you will then be free to sell the property on the open market at full market value.

For full details on the scheme please liaise with the Regent's View Sales Consultants.

CREATED BY BERKELEY

We want the places built by Berkeley to be renowned for the quality of their landscape and the open space.

The term ‘landscape’ comes from two words meaning ‘to shape a place where people belong’. That idea inspires our approach. The space between buildings is where you create a community and somewhere that is sociable, sustainable and safe.

We believe beautiful landscaped open spaces give room to breathe and sit in harmony with our vision for the carefully considered architecture and thoughtfully designed interiors throughout our developments.

To pioneer a landscape-led approach to urban developments is hugely important to us. We truly believe these spaces between the buildings are as important as the buildings themselves, where one’s well-being within that space can be emphasised through positive design.

KING’S ROAD PARK

“Our goal is to transform industrial sites from a bygone age into beautiful places, which people call home.”

Tony Pidgley CBE
Former Chairman of Berkeley Group

DESIGNED FOR LIFE

At Berkeley, we are committed to creating great places where people love to live, work and relax. Where the homes are light-filled, adaptable and finished to very high standards. Where carefully planned public areas enhance well-being and quality of life for residents and visitors. Where people feel a sense of community.

Customers Drive All Our Decisions

We achieve that by putting our customers at the heart of everything we do. First, we strive to understand what our customers want and need well-built homes, in a pleasant and safe neighbourhood, with plenty of amenities and good transport connections. Then we apply that understanding to all our planning and design decisions.

And for every new development, we challenge ourselves to go further, to improve and innovate, ensuring we satisfy the real needs of our customers in inspiring and sustainable ways.

Quality First To Last

Quality is the defining characteristic of Berkeley developments, right down to the very last detail. We choose our locations, style of homes, construction practices, materials and specifications with great care.

When you buy a new home from Berkeley you can be safe in the knowledge that it is built to high standards of design and quality, has low environmental impact and that you will receive a professional, efficient and helpful service from us. For extra peace of mind, all new properties come with a 10-year build warranty.

Green Living

For Berkeley, sustainability isn’t simply the latest buzzword. We are committed to creating a better environment within our developments and in the areas that surround them. That’s why we build on brownfield sites whenever we can, bringing new life to disused and unloved spaces. We take care to protect the natural environment and enhance biodiversity. All our homes are designed to reduce water and energy consumption, and to enable residents to recycle waste.

Commitment To The Future

When we plan a development, we take a long-term view of how the community we create can thrive in years to come. Our aim is to permanently enhance the neighbourhoods in which they are located, through intelligent design, quality landscaping, sympathetic architecture or restoration, and high standards of sustainability. We don’t just build for today; we build for the future too.

CUSTOMER RELATIONS

We want to ensure you are happy with every aspect of your new home, so we look after our customers at every stage with expert advice, attention to detail and continuous communication. From exchange of contracts, your dedicated Berkeley Customer Service Representative will help with any questions you may have.

Here is what you can expect:

- From the day you exchange – until the day you complete – we'll update you regularly on progress.
- You will be given your own log-in credentials at reservation to access your personal MyHome Plus online account where you will be able to view the development, property, construction progress and buying process information.
- Sustainability is high on any responsible builder's agenda. We promise to fully communicate the environmental features of our developments to all of our customers.
- We personally hand over your key on completion day and make sure everything is to your satisfaction.
- Upon handover, we'll meet you on site to demonstrate all the functions and facilities of your new apartment.
- The 2-year warranty with 24-hour emergency service has a dedicated customer service telephone number and from the 3rd to the 10th year you'll have the added security protection of a 10-year building warranty.
- Finally we'll contact you after 7 days, at 4 weeks and 7 months after you move in, to make sure everything continues... perfectly.

SUSTAINABILITY

This is how we are ensuring sustainability at Regent's View.

People, Planet, Prosperity

Sustainability is fundamental to Berkeley's ethos. In simple terms, we want to ensure the long-term health, well-being and prosperity of people and the planet. There are a range of ways we are managing and minimising the environmental impact of our operations and delivery of homes and communities. These are the initiatives we have implemented at Regent's View.

Nature & Biodiversity

Parkland, trees, flowers, green roofs, ponds, hedges, gardens – these are the fundamentals of a thriving natural environment that can be enjoyed by everyone, even in the heart of the city. They are all part of our commitment to net biodiversity gain on our developments. Within and around Regent's View, we have created natural habitats that encourage wildlife to flourish. We are working with Gillespies to engage residents in the natural landscapes that we have created.

Waste & Recycling

We actively encourage all residents to reduce their waste wherever possible. In addition to external recycling bins, we provide integrated recycling bins in kitchens to make it easier to separate and recycle waste.

Clean Air

It is hard to avoid polluted air, particularly in our cities. Throughout Regent's View we have planted trees, shrubs and flower beds to help create a cleaner air environment. Within our homes we provide mechanical ventilation with heat recovery to filter the internal air.

Water Efficiency

Our homes are designed to high water efficiency standards and are fitted with dual flush WCs, and low-flow taps and showerheads which use less water without compromising convenience and comfort. We also suggest simple steps to reduce water consumption, such as not leaving taps running unnecessarily.

Energy Efficiency

Efficient use of electricity helps lower fuel bills and reduces carbon emissions. Our homes have been designed to use less energy than a standard home. They have air-tightness and have been fitted with mechanical ventilation units with heat recovery (MVHR). All lighting is low energy.

Noise Reduction

We can't eliminate noise, but we consider the impact of noise in the design of our homes. We consider external noise, such as from nearby roads, and internal noise including the transfer between rooms and floors. We incorporate measures to reduce the different types of noise wherever possible to create a quieter environment.

Stewardship

Maintaining our communal open spaces and facilities in perpetuity is an important benefit to the whole community. Management and residents work together to ensure the development remains in pristine condition.

Sustainable Transport

Less than 5 minutes walk to the nearest Overground Station. Multiple bus routes up and down the Cambridge Heath Road. We also provide secure cycle parks and car charging points to encourage the use of sustainable methods of transport, to help reduce air pollution around the development and the wider area. These active methods of transport also help encourage healthier lifestyles.

Future-Proof Design

From the early stages of design, we assess how our homes will stand up to the future effects of climate change, such as how they will be affected by higher summer temperatures, periods of drought, or more extreme rainfall. We are constantly researching how we can ensure our homes and developments are more resilient to these extremes to understand what new innovative technologies we should use in our future designs.

OUR VISION 2030

At Berkeley Group our passion and purpose is to build quality homes, strengthen communities and improve people’s lives. We are innovating, pushing boundaries and taking action to ensure we have a long-term, positive impact that is good for our customers, the communities we touch, our business and the world around us.

We transform underused sites into exceptional places and we’re also transforming the way we work; embracing technology and raising standards, as we continue to deliver an outstanding customer experience and create high-quality homes that delight our customers.

Our Vision 2030 is our ten year plan which sets out how we will achieve this.

Transforming Places

Working with local people and partners we create welcoming and connected neighbourhoods where you can be proud to live.

Transforming Lifestyles

Taking action on climate change and giving you ways to live more sustainably. We’re building efficient homes that use less energy over their lifetime, with sustainable travel choices on the doorstep.

Transforming Nature

Creating beautiful places with habitats that help nature to thrive, meaning that every site is left with more nature than when we began.

Transforming Futures

Helping people to reach their potential through apprenticeships and training, and programmes supported by the Berkeley Foundation.

THE BERKELEY FOUNDATION

We are committed to making a real and lasting difference to the communities we serve.

The Berkeley Foundation supports voluntary organisations in tackling long-term social issues in their local community. Working together, we help people choose a different life path, develop confidence and skills, and find hope for the future. Since we established the Berkeley Foundation in 2011, we have committed many millions of pounds to hundreds of charities and organisations. A significant proportion of our donations are raised through the tireless efforts of our own staff.
