

Sunningdale Park

ROYAL BERKSHIRE

Berkeley
Designed for life

Set over 79 acres in an idyllic corner
of the Royal County of Berkshire,
Sunningdale Park is a country estate
re-imagined for 21st century living

When you first see Sunningdale Park, you will marvel at the stunning views over the expansive parkland with its open fields, woodland, walled garden and lake. Many of our homes are historic estate buildings that will be lovingly restored and sympathetically converted to reside in harmony alongside a range of new houses and apartments.

Meander amongst the meadow grassland and woodland trails with its abundance of wildlife. Admire the 500-year-old chestnut tree, one of almost 10,000 trees that populate the estate. Glimpse Northcote House, a neo-Georgian mansion, tucked in a quiet corner of the parkland as it peeks through the treetops.

All this beauty and tranquillity is on the very doorstep of homes built to Berkeley's exacting standards. Step into Sunningdale Park and see a special place where a spectacular landscape and the captivating history of a country estate form the backdrop for a new and thriving community.

Northcote House

Within the 'golden triangle' that takes in neighbouring Windsor and Ascot, Sunningdale Park offers a truly enviable lifestyle

Map of area, 1912

WELCOME TO
SUNNINGDALE
PARK

The site of Sunningdale Park was within the Royal Forest of Windsor, until the forest's enclosure in 1813

A walk through history

Living at Sunningdale Park, you will become part of its special centuries-long history.

A garden at Sunningdale was first mentioned in 1798 when James William Steuart purchased the heathland around his family home, Northcote House. By 1845, the estate had extended to nearly 80 acres, with a new house at the top of the hill overlooking lawns, woodland and an attractive parkland. The horse racing enthusiast, Major William Joicey, bought the estate in 1890 and rebuilt the walled garden, also adding new stables, gardeners' cottages and lodges. He expanded the lake and created the beautiful rockwork garden, which was built in Pulhamite, artificial stone and is the main reason the gardens are Grade II Listed Registered Gardens.

Sir Hugo Cunliffe Owen, another horse racing enthusiast, bought the house in 1929 and completely remodelled it, leaving the landscape largely unchanged. More recently, Sunningdale Park was owned by the British Government and accommodated the Civil Defence and Civil Service Colleges.

The Rock Garden & Pool Edge, 1931. Now part of Northcote Gardens

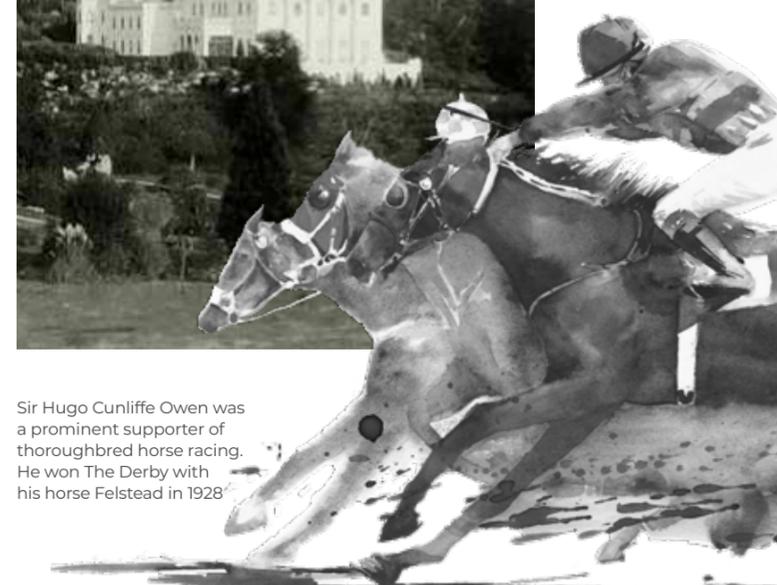

Northcote House

Historic parkland

Sir Hugo Cunliffe Owen was a prominent supporter of thoroughbred horse racing. He won The Derby with his horse Felstead in 1928

Sunningdale Park is home to the notable Northcote House

In 1885, Mr Mackenzie of Kintail bought the estate, his primary reason for buying the house was reportedly for the proximity to Ascot and the "opportunities to mix with high society". It was reported in 1886 during Ascot Week that Mr and Mrs Mackenzie hosted a "small dance" at Sunningdale Park, which had been attended by the Prince and Princess of Wales, Princess Louise, Prince Albert Victor and Prince Christian.

Extract from 1862 sales particulars for Sunningdale Park

"The mansion is commodious.... and presents a handsome elevation, occupying a bold knoll, screened from the north by plantations, with terraces overlooking large and beautiful lawns, embellished by a conservatory, and with banks of flowering shrubs sloping to a parkland studded with some fine old forest timber, and belted by plantations which afford extensive walks. There are also various out-buildings, stable yard with stabling for seven horses, coach-houses, grooms' rooms, large and productive walled kitchen gardens, with gardeners' cottages, vinery and hothouse."

Northcote House viewed from Northcote Gardens

A historic setting restored

Sunningdale Park originally formed part of the historic Forest of Windsor and is characterised by rolling parkland, woodland and pasture. Much of the current landscape dates back to the late nineteenth century when the lakes and gardens were created. Many of the trees on the estate are even older and parts of the southern parkland and grazing fields have been reinstated as ecologically rich grassland. These Grade II Listed historic parklands are of national importance and are on the Register of Historic Parks and Gardens by English Heritage for their special historical interest.

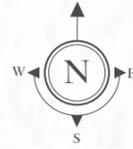

Landscape architects, Murdoch Wickham, have created a scheme to enhance this stunning location and enable the restoration of many historical elements of the estate, including the Gardens and Pleasure Grounds surrounding Northcote House and the exquisite views from the mansion.

THE WOODLAND

Five distinct character areas

Sunningdale Park will be made up of character areas that have been informed by the history of the country estate and are defined by the design of the properties and their surroundings. Tree-lined Chestnut Hill has elevated views from the edge of the park, adjacent to Northcote Gardens with its beautiful lake and old 'Gardens & Pleasure Grounds'. The Walled Gardens entice you in to enjoy the landscaped, communal area of the former Victorian kitchen garden. The Parkland's rural 47 acres is Sunningdale Park's pièce de résistance with incredible views over the estate. The Woodland is home to many centuries-old trees allowing you to immerse yourself in the history of the park.

The Character Areas

CHESTNUT HILL

Home to the c. 500 year old chestnut tree and commanding an elevated position over the parkland, Chestnut Hill sits to the north westerly edge of the site. At the centre is a tree-lined avenue, framing views of the parkland.

Photography of the Walled Gardens

THE WALLED GARDENS

To the east of the Northcote Gardens lake, the historic Walled Gardens provides a beautiful enclosed setting. Within the fully restored Victorian garden walls is a landscaped, communal garden with a variety of espalier fruit trees, raised planters, pergolas and mixed herbaceous and shrub planting, reflecting the former use as a kitchen garden.

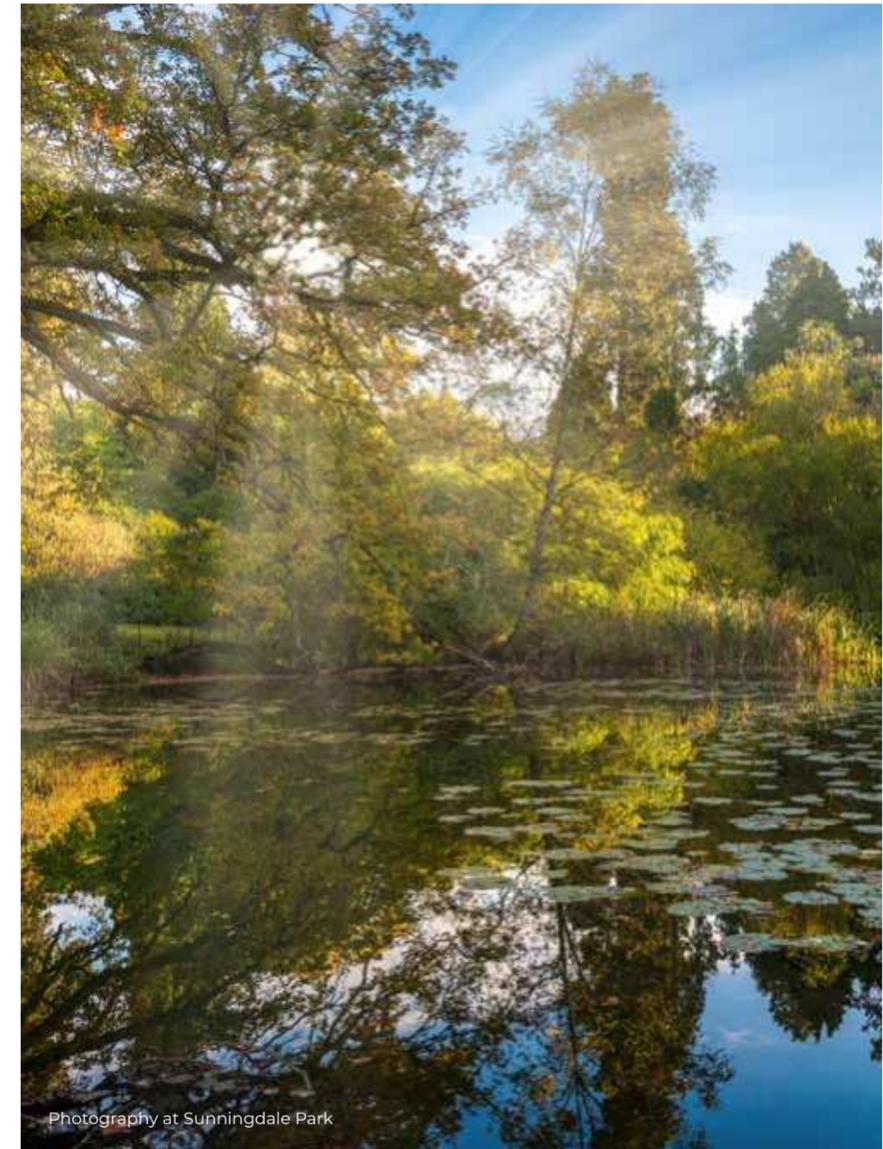

THE PARKLAND

Bounded by traditional estate railing, The Parkland is the centrepiece of Sunningdale Park, the perfect place to walk, run or simply relax with family and friends. Covering 47 acres, it offers woodland trails, meandering paths and mown, grass paths in the meadows. A pond and landscaped wooden seating areas enable you to stop, reflect and soak up the spectacular views.

Photography at Sunningdale Park

THE WOODLAND

The Woodland, a feature of the site since at least the 1840s, sits to the south of Sunningdale Park with many of its mature trees kept to retain its historic character. The old paths amongst these majestic trees have been preserved and enhanced.

Photography at Sunningdale Park

NORTHCOTE GARDENS

This area is centred on the lake created by James Pulham and Son in the 1890s. Glimpse the Grade II Listed neo-Georgian mansion, Northcote House, tucked in a corner of Sunningdale Park, as it peeks through the treetops of the old 'Gardens & Pleasure Grounds'.

INDIVIDUALLY DESIGNED HOMES
BEAUTIFULLY FINISHED

The Berkeley quality ensures that
your house will become a home,
where memories are created

Classic contemporary homes in perfect
harmony with their surroundings
– a place for everyone

The undulating sweep of the parkland, treescapes and woodland have provided a range of unique spaces where we have sympathetically created beautiful, new homes. Character features have been retained within the diverse historic buildings, and all homes have been designed for 21st century living maximising light and views of the natural setting wherever possible.

With a variety of striking properties – from one to four bedroom apartments and penthouses to one to five bedroom detached houses, townhouses and cottages, there is a place for everyone to call home at Sunningdale Park.

THE BERKELEY
DIFFERENCE

Photography of the Waterfront Villas at Taplow Riverside

Buy from Berkeley with confidence

We want to ensure that you are happy with every aspect of your new home, so we look after our customers at every stage with expert advice, attention to detail and continuous communication. From exchange of contracts, your dedicated Berkeley Customer Relations Team will help with any questions you may have.

Exceptional customer service

As a first-class business we place the highest priority on customer service and will help and support you throughout the buying process and beyond. Our levels of customer service exceed that of other premium brands.

10-Year Premier Warranty

For your peace of mind, our homes benefit from a 10-year Premier Guarantee. This is complemented by a warranty from Berkeley for the first two years and a dedicated Customer Service Team on hand.

Attention to detail

With over 45 years of experience, our expertise shines through in everything we do. From bespoke mirrors in the bathrooms and underfloor heating, to selecting the style of the kitchen cabinets and handles, our attention to detail and quality is where we make a difference.

Sustainability

Our homes are designed for the future, and include features to encourage sustainable living such as dual-flush WCs, recycling bins and energy efficient white goods to create a more sustainable, eco-friendly way of life for you and the environment.

Home:
the place where you
feel most comfortable,
safe and loved

Berkeley has dedicated itself to creating amazing places for people to live and enjoy

At Berkeley, we know that a home isn't just a house or apartment, however beautifully crafted. A home is the beating heart of a family, in a community with character, friends and a sense of belonging. It's the place where you feel most comfortable, safe and secure.

For 45 years, Berkeley has dedicated itself to creating amazing places for people, in developments that are beautiful to look at with inviting outdoor spaces for everyone to enjoy. But before a single line is drawn on a plan or a brick is laid, we start by asking what the people who are going to live there really want.

Not just fantastic homes, but a sustainable community. Parks to play in, paths where they can walk or run, trees and gentle views, cafés, shops, restaurants, places to meet, leisure facilities, services that make their busy lives that bit easier. Somewhere they can be proud to live.

Then we apply our drive, passion and creativity to the details that will make these wishes a reality. No two developments are the same; each is tailored to its context and the people who will live there. That's why when you buy a Berkeley home you get something truly special.

Placemaking is at the heart of what we do

Residents' Summer "Meet the Neighbours" event at Highwood

Proud to be a member of the Berkeley Group of Companies

Sustainability is carefully considered when we create our new places. Sunningdale Park is no exception

People, planet, prosperity

Sustainability is fundamental to Berkeley's ethos. In simple terms, we want to ensure the long-term health, wellbeing and prosperity of people and the planet. There are a range of ways we are managing and minimising the environmental impact of our operations and delivery of homes and communities. These are the initiatives we have implemented at Sunningdale Park.

Nature and biodiversity

Parkland, trees, flowers, living roofs, ponds, hedges, gardens – these are the fundamentals of a thriving natural environment that can be enjoyed by everyone. They are all part of our commitment to net biodiversity gain on our developments. Within and around Sunningdale Park, we have created natural habitats that encourage wildlife to flourish. We are working with Murdock Wickham to engage residents in the natural landscapes that we have created.

Waste and recycling

We actively encourage all residents to reduce their waste wherever possible. In addition to external recycling bins, we provide integrated recycling bins in kitchens to make it easier to separate and recycle waste.

Water efficiency

Our homes are designed to high water efficiency standards and are fitted with dual flush WCs, and low-flow taps and showerheads which use less water without compromising convenience and comfort. We also suggest simple steps to reduce water consumption, such as not leaving taps running unnecessarily. Individual homes and apartment buildings also benefit from rainwater harvesting, which is used in gardens and landscaped areas.

Energy efficiency

Efficient use of electricity and gas helps lower fuel bills and reduces carbon emissions. Our homes have been designed to use less energy than a standard home. They have enhanced levels of thermal insulation and air-tightness. All lighting is low energy and kitchen appliances are selected to deliver high levels of energy efficiency.

Sustainable materials

We commit to sourcing the materials for the construction of our buildings in a sustainable and responsible way. All timber and wood-based products used to build your home should be certified to either the Forest Stewardship Council (FSC) or Programme for the Endorsement of Forest Certification (PEFC) scheme. This means it will have come from a responsibly managed forest. Our focus on materials doesn't just stop there – as a business we are committed to measuring and reducing the embodied carbon of our buildings, which where possible, includes sourcing low carbon materials, and those with high levels of recycled content.

Clean air

It is hard to avoid polluted air, particularly in our cities. Throughout Sunningdale Park, we have planted trees, shrubs and flower beds to help create a cleaner air environment.

Sustainable transport

Sunningdale Park station is close by and there are bus stops along Larch Avenue. We also provide cycle paths, secure cycle parks and car charging points to encourage the use of sustainable methods of transport, to help reduce air pollution around the development and the wider area. Promoting walking and cycling as methods of transport also help encourage healthier lifestyles.

Stewardship

Maintaining our communal open spaces and facilities in perpetuity is an important benefit to the whole community. We work with managing agents, Encore, and residents to ensure the development remains in pristine condition.

Future-proof design

From the early stages of design, we assess how our homes will stand up to the future effects of climate change, such as how they will be affected by higher summer temperatures, periods of drought, or more extreme rainfall. We are constantly researching how we can ensure our homes and developments are more resilient to these extremes to understand how we can adapt to future climate change in our future designs.

Designed for life

At Berkeley, we are committed to creating great places where people love to live, work and relax. Where the homes are light-filled, adaptable and finished to very high standards. Where carefully planned public areas enhance wellbeing and quality of life for residents and visitors. Where people feel a sense of community.

Customers drive all our decisions

We achieve that by putting our customers at the heart of everything we do. First, we strive to understand what our customers want and need – well-built homes, in a pleasant and safe neighbourhood, with plenty of nature, amenities and good transport connections. Then we apply that understanding to all our planning and design decisions.

And for every new development, we challenge ourselves to go further, to improve and innovate, ensuring we satisfy the real needs of our customers in inspiring and sustainable ways.

Choice and diversity

No two Berkeley customers are the same, so we aim to offer a wide choice of property location, size and type. From central London to major towns and cities; from market towns to rural villages, countryside to the coast – we build in locations our customers love. And whatever home you are looking for, whether that's a city penthouse, a modern studio apartment or traditional family home, you will find the perfect fit for your lifestyle.

Quality first to last

Quality is the defining characteristic of Berkeley developments, right down to the very last detail. We choose our locations, style of homes, construction practices, materials and specifications with great care. When you buy a new home from Berkeley you can be safe in the knowledge that it is built to high standards of design and quality, has low environmental impact and that you will receive a professional, efficient and helpful service from us. For extra peace of mind, all new properties come with a 10-year build warranty.

Green living

We are committed to creating a better environment within our developments and in the areas that surround them. That's why we build on brownfield sites whenever we can, bringing new life to disused and unloved spaces. We take care to protect the natural environment and enhance biodiversity. All our homes are designed to reduce water and energy consumption, promote recycling and enable residents to choose sustainable transport options.

Commitment to the future

When we plan a development, we take a long-term view of how the community we create can thrive in years to come. Our aim is to permanently enhance the neighbourhoods in which they are located, through intelligent design, quality landscaping, sympathetic architecture or restoration, and high standards of sustainability. We don't just build for today; we build for the future too.

Transforming tomorrow

At Berkeley Group our passion and purpose is to build quality homes, strengthen communities and improve people's lives. We are innovating, pushing boundaries and taking action to ensure we have a long-term, positive impact that is good for our customers, the communities we touch, our business and the world around us.

We transform underused sites into exceptional places and we're also transforming the way we work; embracing technology and raising standards, as we continue to deliver an outstanding customer experience and create high-quality homes that delight our customers.

Our Vision 2030 is our ten year plan which sets out how we will achieve this.

OUR VISION 2030 TRANSFORMING TOMORROW

Transforming places

Working with local people and partners we create welcoming and connected neighbourhoods where you can be proud to live.

Transforming lifestyles

Taking action on climate change and giving you ways to live more sustainably. We're building efficient homes that use less energy over their lifetime, with sustainable travel choices on the doorstep.

Transforming nature

Creating beautiful places with habitats that help nature to thrive, meaning that every site is left with more nature than when we began.

Transforming futures

Helping people to reach their potential through apprenticeships and training, and programmes supported by the Berkeley Foundation.
