The Developer

St William is a joint venture between the Berkeley Group and National Grid. Our vision is to develop sites that have been closed to the public for decades and reconnect them to the community.

We want the places built by St William to be renowned for the quality of their landscape and the open space. The term 'landscape' comes from two words meaning 'to shape a place where people belong'.

The idea that inspires our approach is the space between buildings where you can create a community and somewhere that is sociable, sustainable and safe. Backed by the strength and expertise of National Grid and the Berkeley Group, St William will regenerate sites at the heart of communities across London and the South of England, creating homes for people to enjoy.
