COLLABORATIVE PLACEMAKING

OUR PASSION AND PURPOSE IS TO BUILD QUALITY HOMES, STRENGTHEN LOCAL COMMUNITIES AND MAKE A POSITIVE DIFFERENCE TO PEOPLE'S LIVES.

We do this through collaborative placemaking. This means taking time to understand each site and its surrounding community, and working in partnership with local people and councils to design unique places with clear local influence and character.

We specialise in large-scale regeneration projects, focusing on challenging and complex sites with great potential. We use our expertise and resources to transform these underused spaces over the long term, delivering the physical and social infrastructure which reconnects them with their surrounding communities and brings them to life.

The neighbourhoods we create are unique, welcoming, safe, low carbon and rich in nature and biodiversity. They combine the amenities local people care about most, with high quality homes of all types and tenures.

These pages describe some of our live sites and our commitments to tackling climate change, reversing biodiversity loss and creating sustainable places where people of all ages and backgrounds can enjoy a good quality of life.

ABOUT US

BERKELEY GROUP BUILDS HOMES AND NEIGHBOURHOODS ACROSS LONDON, BIRMINGHAM AND THE SOUTH OF ENGLAND

We are purpose-driven company, with deeply embedded values that shape everything we do.

We pride ourselves on the quality of our work, building more than 3,000 homes a year alongside a mix of commercial and community spaces. We have over 60 live developments, including over 20 of the most challenging long-term regeneration projects in the country.

Our group includes six operating companies, Berkeley, St George, St James, St Joseph, St Edward (a joint venture with M&G Investments) and St William (a joint venture with National Grid). Each business is autonomous, collaborative and has the expertise and local knowledge to create quality homes and places.

OUR VALUES

HAVE INTEGRITY
build trust by being open, clear and credible

RESPECT PEOPLE
work together, empower people and value their contribution

THINK CREATIVELY
find individual solutions for every site and situation

BE PASSIONATE
take pride in what we do and the impact we make

EXCELLENCE THROUGH DETAIL
deliver the best through attention to detail in everything we do

OUR PURPOSE

BUILD QUALITY HOMES

ALBERT EMBANKMENT, VAUXHALL

STRENGTHEN COMMUNITIES

IMPROVE PEOPLE'S LIVES

BERKELEY FOUNDATION

CONNECTING PEOPLE AND NATURE

LIVING CLOSE TO NATURE IS GOOD FOR OUR WELLBEING AND IS CENTRAL TO THE WAY BERKELEY DESIGNS, BUILDS AND LOOKS AFTER NEW PLACES.

In 2016 we made a commitment to create a 'net biodiversity gain' on every new site, which means we measure the land's established natural habitats before work starts, then create long-term plans to increase its natural value and create a more beautiful, connected and sustainable living landscape.

We plan and deliver these nature-rich settings in partnership with local Wildlife Trusts, conservation groups and landscape architects, ensuring they are open and accessible places for the whole community to enjoy.

Our approach is helping nature to recover across dozens of live and future sites, and giving thousands of people the chance to reconnect with a greener, wilder landscape close to their homes.

SIR DAVID ATTENBOROUGH AWARD FOR ENHANCING BIODIVERSITY, KIDBROOKE VILLAGE

CLIENT AWARD

KIDBROOKE VILLAGE, GREENWICH

CLIMATE ACTION

WE ARE COMMITTED TO TACKLING CLIMATE CHANGE AND CREATING THE LOW CARBON HOMES AND COMMUNITIES OUR PEOPLE AND PLANET NEED.

We are proud to be a 1.5°C aligned business, which means we have set independently verified science-based targets for reducing our greenhouse gas emissions.

As part of this long-term commitment we are designing more energy efficient homes and places, which include highly efficient building fabric and low carbon energy infrastructure and technology solutions. We have also adapted the design and management of our neighbourhoods so they are more resilient to extreme weather and a warmer climate.

Our direct business operations have been carbon neutral since 2018 and we are committed to reducing the embodied carbon within our supply chain.

In 2020 we were rated 'A' for climate action and transparency by CDP; the highest score available and the highest score achieved in our sector.

St James
Designed for life

11-acre
brownfield site

2,372
mixed-tenure homes

50%
public open space

98,365 sqft
commercial and community space

THIS ISOLATED WAREHOUSING SITE IS MAKING WAY FOR NEW HOMES AND AMENITIES, SET WITHIN AN OPEN NETWORK OF BIODIVERSE PARKLAND, PUBLIC SQUARES AND WATERWAYS.

A new five-acre park sits at the heart of White City Living, bordered by a series of restored railway arches which have been brought to life as new cafés, restaurants and shops.

The site has been directly connected to neighbouring Westfield Shopping Centre via new routes through a Victorian railway viaduct, while new pedestrian decks and bridges have been built over the Central Line, offering access to Wood Lane and two neighbouring Tube stations.

Hammersmith & Fulham Council |
Greater London Authority

ARCHITECTS:
Patel Taylor | Stockwool

LANDSCAPE + ECOLOGY:
Murdoch Wickham | London Wildlife Trust

HOUSING ASSOCIATIONS:
Notting Hill Genesis | Optivo Housing Group

PARTNER:
TfL

WHITE CITY LIVING: KEY CHALLENGES

- landlocked warehouse with railway and Underground lines along three boundaries
- single point of access across narrow bridge over Central Line
- lack of electricity capacity

ACCESSIBLE GREEN SPACES

- 5-acre public park
- +86% biodiversity net gain (phase one) | more than 430 new trees | linear habitats | native planting

RECONNECTING THE COMMUNITY

- shops | cafés | restaurants | outdoor events venue | community spaces
- bridges and pedestrian decks built over the Central Line
- pedestrian routes created through railway arches, connecting Westfield to the south, Wood Lane to the west and Imperial College to the north

SUSTAINABLE TRANSPORT

- active electric car charging to 100% of parking spaces | car club | secure cycle parking

LOW CARBON

- all commercial units BREEAM 'Very Good' or 'Excellent' standard
- energy efficient building fabric | communal heat and power network

public open space

c20,000 sqft

commercial and community space

A LONG DERELICT JET ENGINE TESTING FACILITY IS BEING TRANSFORMED INTO A NEW VILLAGE, INCLUDING A TRADITIONAL HUMPBACK BRIDGE, VILLAGE CENTRE AND GREEN AND MIX OF ON-SITE COMMUNITY AMENITIES.

A new primary school, nursery, café, shops and community building will help to meet residents' everyday needs, and a new 70 acre Country Park is being created immediately next door to the village.

HARTLAND VILLAGE: KEY CHALLENGES

- design and architecture sensitive to the unique woodland setting
- creating a distinctive and welcoming identity for the new village
- delivering amenities and landscape features early on
- significant investment in remediation of this brownfield site

COMMUNITY

- early delivery of community amenities and green infrastructure
- traditional village centre including two-form primary school | nursery | village green | community hall | shops | café
- dedicated community support and Community Plan
- award-winning Employment and Skills Plan

NATURE-RICH HABITATS

- biodiverse parkland | new 70-acre Country Park | nature trails
- target +37% net biodiversity gain including wetland habitats | grassland | >1,000 new trees

SUSTAINABLE INFRASTRUCTURE

- nearly 3,000 cycle parking spaces | electric vehicle charging infrastructure | bespoke green Travel Plan
- rainwater harvesting | sustainable drainage network including a lake and swales

100,000 sqft
commercial and community space

THIS REDUNDANT 16-ACRE GASWORKS IS BEING STITCHED BACK INTO THE LOCAL COMMUNITY THROUGH AN OPEN NETWORK OF FOOTPATHS, CYCLE ROUTES, BIODIVERSE PARKLAND, PUBLIC PARK SQUARE AND GARDENS.

There will be 1,843 mixed-tenure homes and the site's Grade II* Listed gasholder, thought to be the oldest surviving in the world, will be carefully restored as the centrepiece of a new Community Park.

KEY CHALLENGES

- remediation of former gasworks
- Grade II* Listed gasholder restored and integrated into masterplan
- restoration of Grade II Listed buildings and war memorials
- provision of new pressure reduction station

A NEW NEIGHBOURHOOD

- 6-acre public green space with public square and gardens
- pedestrian and cycle network | biodiverse landscaping
- shops | bars | cafés | restaurants | leisure spaces

CUTTING CARBON

- electric charging infrastructure to 100% of parking spaces | 3,500 secure cycle spaces | car club spaces
- energy efficient building fabric | communal heat and power network

CELEBRATING LOCAL HISTORY

- restoration of Listed buildings, war memorials and a Grade II* Listed gasholder

500,000 sqft
commercial and community space

THE 88-ACRE FORMER SOUTHALL GASWORKS IS BEING TRANSFORMED INTO A NATURE-RICH NEIGHBOURHOOD, CHARACTERISED BY 13 ACRES OF BEAUTIFUL PARKS, MEADOWS AND WETLANDS.

Close to half of the site will be public space, including a mix of natural habitats, fitness trails, public squares, outdoor event space and children's play and recreation space.

The neighbourhood will also bring new public amenities to Southall, include a health centre, primary school, community centre and a mix of shops, cafés and other commercial spaces.

COMPUTER
GENERATED IMAGE

THE GREEN QUARTER: KEY CHALLENGES

- extensive remediation of former gasworks site
- complicated land assembly including 124 parcels of land
- restrictive Civil Aviation Authority height parameters
- National Grid retained land and easements run through the development
- adjacent to Metropolitan Open Land, Blue Ribbon Network & Nature Conservation site

A WELCOMING, HEALTHY NEIGHBOURHOOD

- community hub | nursery | primary school | health centre | commercial space
- children's playspace | 1km canal frontage | fitness trails and cycle network | public squares, outdoor amphitheatre and gardens
- dedicated community support

NATURE RECOVERY

- 42 acres of public open space including two parks
- target 75.5% net biodiversity gain
- meadows | hedgerows | grassland | 2,500 new trees and copses | wetlands with new reedbeds and ponds

LINKING COMMUNITIES

- new road bridge, relief road and connection to A-road network
- footbridge connections to neighbouring 90-acre Minet Country Park | short walk to forthcoming Southall Station on the Elizabeth Line

800,000 sqft

commercial and community space

AFTER TWENTY YEARS OF PARTNERSHIP AND REGENERATION, ROYAL ARSENAL HAS BECOME A BEAUTIFUL RIVERSIDE NEIGHBOURHOOD.

Regeneration began with the restoration of Royal Arsenal's 23 heritage buildings and creating welcoming and safe public spaces. A mix of amenities have opened up over

time, including pubs, cafés, shops, offices, a medical centre, pharmacy, Heritage Centre, the Academy of Performing Arts, a brewery, restaurants and a crèche.

More than 500 trees have been planted and for the first time in generations local families can enjoy a walk along the Woolwich riverside.

NEW LINKS FOR THE COMMUNITY

- 34 acres of public space including pedestrian streets | cycle routes and footpaths | public squares | 1km Thames Path
- Berkeley delivered on-site Crossrail station box
- new access to 23 restored and repurposed Grade II Listed buildings

BOOSTING THE LOCAL ECONOMY

- nurseries | dentist | pharmacy | bank | pubs | supermarkets | hotel | cafés | restaurants | farmers' market
- more than 150,000 sqft creative district called Woolwich Works forthcoming
- c1,300 long-term jobs created across the masterplan so far
- c450,000 sqft light industrial space

SUSTAINABILITY

- 6.5 acres of parkland | 500 new trees | green roofs | meadow | grassland planting
- combined heat and power network | energy-efficient building fabric
- electric car charging infrastructure | 1,100 cycle parking spaces

23,605 sqft
commercial and community space

THIS GROWING COMMUNITY TO THE NORTH OF BRACKNELL WILL PROVIDE A MIX OF PRIVATE AND AFFORDABLE HOMES SET WITHIN GREEN OPEN SPACES, FOOTPATHS, STREAMS AND A NETWORK OF NATURAL HABITATS THAT ARE INCREASING LEVELS OF LOCAL WILDLIFE AND BIODIVERSITY.

Berkeley has worked closely with Bracknell Forest Borough Council to deliver a two-form entry primary school and nursery, a 65-bed Extra Care community,

a new Country Park, community garden and children's play spaces, all connected by the Greenway, a sustainable pedestrian route which curves through the Woodhurst Park landscape from east to west.

A Community Plan is being delivered here, leading to Christmas and Easter get-togethers, a Saturday morning dog-walking club and an active Facebook group where residents post ideas, make plans or simply chat.

“IT WAS REALLY GREAT TO MEET THE NEW RESIDENTS OF WOODHURST PARK AND SHOW THEM SOME OF THE NATURE ON THEIR DOORSTEP. THEY SEEM GENUINELY INTERESTED IN HOW THEY CAN BRING NATURE INTO THEIR GARDENS AND APPRECIATE THE GREEN SPACES THAT HAVE BEEN INCLUDED IN THE DEVELOPMENT.”

RICHARD WOODS, BERKSHIRE, BUCKINGHAMSHIRE & OXFORDSHIRE WILDLIFE TRUST

WOODHURST PARK

WOODHURST PARK: KEY CHALLENGES

- redevelopment of a greenfield site to provide a new community and associated infrastructure
- connectivity of the phases and green spaces to allow permeability across the site and linking to the surrounding neighbourhoods.

LIVING LANDSCAPE

- 750 mixed-tenure homes including Extra Care homes
- 65 acres of parkland and natural habitats
- network of walking routes and cycle paths
- community gardens

HACKNEY

A development by
Berkeley
Designed for life

“
OUR PARTNERSHIP AT WOODBERRY DOWN IS DELIVERING ONE OF EUROPE’S BIGGEST SINGLE-SITE REGENERATION PROJECTS, PROVIDING NEW, MODERN, GENUINELY AFFORDABLE HOMES FOR EXISTING TENANTS AND FANTASTIC NEW FACILITIES AND OPEN SPACES FOR EVERYONE.”

PHILIP GLANVILLE, MAYOR OF HACKNEY

64-acre
post-war housing estate regeneration

5,700
mixed-tenure homes

43%
public open space

105,000 sqft
commercial and community space

WOODBERRY DOWN COMMUNITY ORGANISATION, HACKNEY COUNCIL, BERKELEY, NOTTING HILL GENESIS AND MANOR HOUSE DEVELOPMENTS TRUST ARE WORKING IN PARTNERSHIP TO DELIVER ONE OF LONDON’S LARGEST ESTATE REGENERATION SCHEMES.

The masterplan will take at least another 25 years to complete and see 1,989 post-war properties replaced by more than 5,700 high quality mixed-tenure homes. The estate’s physical regeneration, epitomised by the wonderful Woodberry Wetlands Nature Reserve, is matched by community engagement and through ongoing collaborative event programmes. These range from the Hidden River Festival to a host of culture, art, training and food clubs.

-------------------------	------------------------------------	---------------------------------	--

THE FORMER FERRIER ESTATE IS BEING TRANSFORMED INTO A WELCOMING NEIGHBOURHOOD WITH BIODIVERSE PARKS AND WETLANDS, MORE MIXED-TENURE HOMES, A NEW VILLAGE CENTRE AND A MIX OF LIVELY COMMUNITY EVENTS LED BY LOCAL PEOPLE.

This regeneration, which has transformed quality of life across this once failing estate, is delivered in partnership by local people, Royal Borough of Greenwich, Greater London Authority and Berkeley.

“ THE SITE IS THE BEST EXAMPLE OF A LARGE-SCALE NATURE RECOVERY NETWORK IN A UK CITY WITH OVER 80 ACRES OF BIODIVERSE PARKLAND, NATURE TRAILS, LAKES AND WETLANDS – DELIVERED IN PARTNERSHIP WITH THE LONDON WILDLIFE TRUST. ”

ROBERT JENRICK, SECRETARY OF STATE FOR HOUSING, COMMUNITIES AND LOCAL GOVERNMENT

KIDBROOKE VILLAGE

KIDBROOKE VILLAGE: KEY CHALLENGES

- phased regeneration of failing post-war Ferrier Estate
- early delivery of social rent homes to rehouse existing estate residents on site
- substantial remediation required
- limited connectivity, with a new railway station required on site

MEETING THE COMMUNITY'S NEEDS

- 5,268 mixed-tenure homes
- natural children's playspace | multi-use games area
- Kidbrooke Construction Skills Centre
- supermarket | office space | cafés | restaurant | pub | gym | community space and healthcare centre
- community development support | year-round community events programme

NATURE RECOVERY

- 86 acres of biodiverse parkland and open space
- +258% net biodiversity gain within Cator Park, delivered in partnership with London Wildlife Trust
- wetland habitats, swales and wildflower meadows | 500+ new trees

SUSTAINABLE LIVING

- electric car charging infrastructure
- delivered the first Berkeley Urban Houses; three-storey modular town houses built off site

Canals & Rivers Trust | Birmingham City University

3-acre
brownfield site

753
new homes

45%
public realm

22,335 sqft
commercial and community space

GLASSWATER LOCKS IS A FORTHCOMING DEVELOPMENT SITUATED LESS THAN HALF A MILE FROM PLANNED HS2 CONNECTIONS.

Located in Birmingham's Learning Quarter, within walking distance of Aston University and Birmingham City University, the site will be the first residentially-led development in this district.

The development will transform a former industrial site to create a distinctive and well-connected canalside setting, providing local amenities for both the development and wider community.

KEY CHALLENGES

- multiple partners: Birmingham City Council, Homes England, Canal & River Trust and Birmingham City University
- complex construction logistics to manage the interface with the public and Canal & River Trust-owned towpath and tunnel
- relocation of crane bases as part of enabling works

KEY FEATURES

- 1.25 acres of public realm including a public square
- new gateway space facilitating a direct connection between Lawley Middleway and the canal
- shops and commercial space
- landscaped podium gardens | bat and bird boxes | solar panels and a green roofs
- electric car charging infrastructure and 753 cycle parking spaces
- ventilation units incorporating heat recovery

commercial and community space

A DERELICT PARCEL FORCE DEPOT IS BEING TRANSFORMED INTO A NEW PART OF WEST HAM, INCLUDING A MIX OF AMENITIES, COMMERCIAL SPACE AND A 12-ACRE HIGH QUALITY PUBLIC OPEN SPACE.

A major infrastructure package is reconnecting this isolated site with its surroundings, including two pedestrian bridges and a new entrance to West Ham

Tube station that will lead directly into a new 4.5-acre public park. The TwelveTrees Park landscape includes a mix of open parkland, sunken gardens and intimate greens; providing several community uses and activities, including amphitheatres, performance spaces, cafés and restaurants.

The neighbourhood will include a new state-of-the-art home for the East London Science School, as well as workspace, offices and leisure venues.

**COMPUTER
GENERATED IMAGE**

TWELVETREES PARK: KEY CHALLENGES

- complex Master Infrastructure Agreement between Berkeley and TfL, and Asset Protection Agreement between Berkeley and Network Rail
- complex service diversions
- substantial infrastructure package including three bridges and new entrance to West Ham station
- site-wide remediation required
- old Thames sewers directly underneath the site requiring careful diversion

COMMUNITY CONNECTIONS

- new entrance to West Ham station and three bridges across the Docklands Light Railway
- 1,000-pupil secondary school | community space | shops, restaurants | bars | leisure | workspace and offices
- 4.5-acre park | pedestrian and cycle network | public squares

ENHANCING THE ENVIRONMENT

- biodiverse landscaping strategy | mixed natural habitats | green roofs | beehives | bird boxes and bat boxes | diverse native planting
- rainwater harvesting | sustainable urban drainage network
- energy efficient building fabric | communal heat and power network | photovoltaic panels

5-acre brownfield site | **926** mixed-tenure homes | **50%** public open space | **93,650 sqft** commercial and community space

PRINCE OF WALES DRIVE IS TRANSFORMING A FIVE-ACRE FORMER GASHOLDER SITE IN BATTERSEA, WITH MORE THAN 900 NEW HOMES SET AMONGST A NETWORK OF PUBLIC SQUARES AND FOOTPATHS THAT WILL RECONNECT THIS INDUSTRIAL SITE WITH THE SURROUNDING COMMUNITY.

More than half of the site will be open public space, including biodiverse landscaping and a major public artwork shaped from reconditioned sections of one of the site's former gasholders.

PRINCE OF WALES DRIVE: KEY CHALLENGES

- site-wide remediation
- site bounded by railway viaducts
- gas main diversion and provision of new pressure reduction station
- Northern Line extension terminates under the site
- relocation of telecommunications infrastructure on site

OPENING UP NINE ELMS

- 50% open space including two public squares | landscaped gardens | children's playspace | footpaths | biodiverse habitats
- Improved connectivity to Battersea Park and local area by providing pedestrian link through the arches
- café | gym | shops | nursery | offices
- heritage artworks including reconditioned section of the former gasholder

ENERGY-EFFICIENT INFRASTRUCTURE

- electric car charging infrastructure | car club | 1,200 secure cycle spaces
- photovoltaic panels | energy efficient building fabric | communal heat and power network

10-acre
brownfield site

1,239
mixed-tenure homes

45%
public open space

24,388 sqft
commercial and community space

THIS FORMER NATIONAL GRID SITE HAS BEEN REOPENED TO THE PUBLIC WITH A 4.5-ACRE NETWORK OF OPEN SPACE, SET AROUND TWO NEW CANALS AND A MARINA.

The neighbourhood includes children's playspace, a series of waterside gardens, shops, an art gallery and pedestrian and cycle routes which cross the waterways.

KEY CHALLENGES

- delivering two new canals, a marina and lock gates
- reconnecting the site with the surrounding community
- funding construction of the new Imperial Wharf station

CREATING CANALS

- 4.5 acres of public space set around two new canals and a marina
- pedestrian and cycle routes including bridge links across the canals
- shops | art gallery | children's playspace

SUSTAINABLE DESIGN

- biodiverse landscaping | 200 new trees | green and brown roofs
- energy efficient building fabric | sustainable urban drainage network | electric car charging infrastructure | secure cycle parking

LANDSCAPE + ECOLOGY:
Broadway Malyan

HOUSING ASSOCIATIONS:
Catalyst Housing | Notting Hill Genesis

BEAUFORT PARK: KEY CHALLENGES

- relocation of Grade II Listed RAF Watchtower, including dismantling the building a reconstruction off site
- pioneering redevelopment site in an industrial area, bounded by railway lines
- complex phase-by-phase remediation
- utilities and underground obstructions running through the site
- presence of Japanese Knotweed
- neighbouring a Conservation Area

A WELCOMING NEIGHBOURHOOD

- 8 acres of public space including parkland | traditional square and bandstand | two children’s playspaces | pedestrian and cycle routes
- nursery | shops | café | pubs | restaurants | business space
- 4.5 acres of green space | green roofs | bat and bird boxes
- restoration of the Grade II Listed Grahame-White Watchtower building
- well established community traditions

THE ICONIC HORLICKS FACTORY, ALONG WITH ITS CLOCKTOWER AND 47-METRE CHIMNEY, WILL FORM THE HISTORIC CENTREPIECE OF THIS NEW NEIGHBOURHOOD CLOSE TO SLOUGH TOWN CENTRE.

This 12-acre regeneration site will provide up to 1,300 mixed-tenure homes, high quality public open spaces and gardens, with a new community square, nursery and café. The landscape-led masterplan will create a net biodiversity gain, which means there will be a more valuable natural environment once works are complete.

“ THIS SUPERB NEW DEVELOPMENT WILL NOT ONLY DELIVER MUCH NEEDED PRIVATE AND AFFORDABLE HOUSING, BUT ALSO PUBLIC GREEN SPACES, BIODIVERSITY AND COMMUNITY FACILITIES, KEY ELEMENTS OF OUR VISION TO CREATE A SUSTAINABLE NEW NEIGHBOURHOOD. ”

JOSIE WRAGG, CHIEF EXECUTIVE OF SLOUGH BOROUGH COUNCIL

COMPUTER GENERATED IMAGE

KEY CHALLENGES

- remediation of former industrial land
- creating a new pedestrian and cycle route to Slough Town Centre and Crossrail station
- restoration of locally Listed building
- retention of existing aquifer

RESTORING A LOCAL ICON

- restoring the iconic factory, clocktower and Grade II Listed war memorial
- 2 acres of public open space including a landscaped public square | pedestrian and cycle routes
- 5,000 sqft nursery
- 2.6 acres of landscaped gardens | 315 new trees | mixed natural habitats
- energy efficient building fabric | photovoltaic panels
- electric vehicle car club | electric car charging infrastructure | 1,300 cycle spaces

5-acre brownfield site | **954** mixed-tenure homes | **49%** public open space | **241,608 sqft** commercial and community space

A 1980s BUSINESS PARK HAS MADE WAY FOR A COMMUNITY OF MORE THAN 900 MIXED-TENURE HOMES AND A RANGE OF HIGH QUALITY COMMERCIAL SPACE, INCLUDING GRADE A OFFICES, RETAIL AND LEISURE SPACE, AND A 190-BED NHOW HOTEL.

The Foster + Partners designed masterplan centres on a two-acre public park, which includes a mix of tranquil green settings and is brought to life with a series of striking bronze statues which celebrate the site's history as a working wharf on the Regent's Canal.

KEY CHALLENGES

- reconnecting the site with the surrounding community
- improving connectivity between Old Street and the City
- delivering a high quality public space within a tight development

A NEW NEIGHBOURHOOD

- iBasin contemporary office complex delivered to BREEAM 'Excellent' standard and Wired Score 'Platinum'
- restaurants, bars, cafés and 190-bed nhow hotel
- 1.9-acre Wi-Fi-enabled parkland and central piazza with bronze sculptures celebrating the site's historic links to the canal network
- new natural habitats including varied parkland | new mature trees | wildflower planting | green roofs | bat boxes
- electric car charging | car club | 1,400 secure cycle spaces
- communal heat and power network | energy efficient building fabric | heat reflective glazing

GREEN PARK VILLAGE

READING

A development by

St Edward
Designed for life

180-acre
brownfield site

1,175
mixed-tenure homes

32%
public open space

8,117 sqft
commercial and community space

THIS VAST BROWNFIELD SITE HAS BEEN TRANSFORMED INTO A WELCOMING AND SUSTAINABLE VILLAGE, SET AROUND A BEAUTIFUL FEATURE LAKE AND 22 ACRES OF LANDSCAPED GREEN SPACE.

The neighbourhood is set to include a market square, primary school, community hall and picnic spots.

The village is being connected to Reading town centre through a new train station and bus interchange, while a network of nature walks, trim trails and lakeside boardwalks encourage residents to enjoy the village landscape on foot or by bike.

A calendar of community events is in place, to encourage people to come together and make the most of their surroundings.

KEY CHALLENGES

- significant upfront investment in infrastructure

A FLOURISHING COMMUNITY

- market square | primary school and nursery | community hub | shops and café | children's playspaces
- 22 acres of green space | 250 new trees | feature lake and swales | trim trails
- public art | calendar of community events

SUSTAINABLE TRAVEL

- new train station and transport interchange
- electric vehicle charging infrastructure | secure cycle spaces | pedestrian and cycle network

public open space

12,577 sqft

commercial and community space

A 1980s OFFICE COMPLEX CLOSE TO CANARY WHARF IS MAKING WAY FOR HUNDREDS OF NEW HOMES, AND ENOUGH NEW COMMERCIAL SPACE TO SUPPORT 300 PERMANENT JOBS.

At ground floor level there will be 2.6 acres of welcoming public squares, waterside walks, biodiverse gardens and children's playspaces, alongside a mix of new shops, cafés and restaurants.

Designed by Foster + Partners, the development includes three elegant towers which step up to a maximum height of 68 storeys, making a striking contribution to the dramatic Canary Wharf skyline.

KEY CHALLENGES

- proximity to rail infrastructure
- close proximity of neighbouring, occupied buildings
- estate ownership and access
- safeguarding of utilities and new connections

A WATERSIDE COMMUNITY

- community crèche | riverside bars and restaurants
- 65% public space including landscaped edge of South Dock | children's play space | heritage arts trail
- new park | play areas | riverside walkway | over 280 new trees | native planting
- rooftop photovoltaic panels | 15,000-litre capacity rainwater harvesting system | communal heat and power network
- electric car charging infrastructure | 2,000 secure cycle spaces

3-acres

brownfield site

844

mixed-tenure homes

20%

public open space

14,800 sqft

commercial and community space

THIS FORMER CAR PARK AND COLLECTION OF LOW RISE BUILDINGS IS SET TO DELIVER MORE THAN 800 MIXED-TENURE HOMES, ALONGSIDE NEW, SHOPS, PUBLIC SPACES AND A FLAGSHIP 4,300 SQFT RESTAURANT.

The hard landscape is being transformed into a network of biodiverse gardens and natural habitats, including quiet seating areas and water features for the local community to enjoy.

The traditional mansion block architecture of the local area has been reflected in the new design, while an energy-efficient building fabric and communal heat and power plant will reduce the development's carbon footprint.

KEY CHALLENGES

- design sensitive to neighbouring Paddington Green Conservation Area
- restoration of the Grade II Listed building

REFLECTING LOCAL CHARACTER

- traditional mansion block architecture reflecting local character
- 4,300 sqft flagship restaurant | shops | bars | cafés | public artworks

- increased tree cover | biodiverse gardens and natural habitats | central water feature | rainwater harvesting system
- electric charging infrastructure | car club | 1,300 secure cycle spaces
- energy efficient building fabric | communal heat and power network

“
CRISIS AND THE BERKELEY FOUNDATION HAVE WORKED IN PARTNERSHIP FOR SEVERAL YEARS. THE PARTNERSHIP CONTINUES TO BE A HUGE SUCCESS, AND MAKES A GENUINE IMPACT ON HOMELESSNESS IN GREAT BRITAIN.”

JON SPARKES, CHIEF EXECUTIVE, CRISIS

YOUNG PEOPLE SUPPORTED BY SURREY YOUNG CARERS AND HELEN & DOUGLAS HOUSE HOSPICE VISITING LONGRIDGE ACTIVITY CENTRE THROUGH A PROGRAMME FUNDED BY THE BERKELEY FOUNDATION.

THE BERKELEY FOUNDATION

THE BERKELEY FOUNDATION IS AT THE HEART OF OUR GROUP, HELPING US TO FULFIL OUR SOCIAL PURPOSE AND TO MAXIMISE OUR POSITIVE IMPACTS WITHIN THE COMMUNITIES IN WHICH WE WORK.

Last year, more than £3 million was committed to good causes through the Foundation, with a focus on supporting disadvantaged young people to reach their potential and improve their lives. The Foundation is funded by Berkeley Group, and through the incredible fundraising efforts of Berkeley staff, with over 60% of employees contributing to the charity.

The Foundation works in three key ways: (1) Strategic Partnerships: Long-term, high value partnerships with leading charities that share our core goals and purpose, including Crisis and The Change Foundation. (2) Community Investment Fund: Targeted grant-giving to support impactful charities to innovate and build

evidence of what works. (3) Designated Charities: Partnerships between Berkeley companies and local charities, which target support to the communities around our sites and offices.
